🚀 PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience in building full-stack web applications using Java, Spring Boot, and React. Skilled in designing REST APIs, implementing secure authentication, and developing scalable software solutions with clean and maintainable architecture.

🔧 TECHNICAL SKILLS

Languages:

Java, JavaScript

Backend Development:

Spring Boot, REST APIs, JWT Authentication, Spring Security, JPA/Hibernate

Frontend Development:

React.js, HTML, CSS, Tailwind CSS

Databases:

MySQL

Tools & Technologies:

Git, GitHub

Core Concepts:

OOPs, API Design, MVC Architecture

🎓 TRAINING

Java Full Stack Development

CETPA Infotech Pvt. Ltd.

Jan 2025 – Sep 2025

- Completed 9 months of hands-on training in Java Full Stack Development
 - Learned Java, Spring Boot, REST APIs, and frontend technologies
 - Built real-world full-stack projects as part of training
-

PROJECTS

◆ Talksy – Real-Time Chat Application

Live: <https://talksy-chat-app-seven.vercel.app/>

Role: Full Stack Developer

- Developed a full-stack chat application with a modern and responsive user interface
- Built scalable frontend using React.js and secure backend APIs using Spring Boot
- Implemented JWT-based authentication, Spring Security, and middleware for protected API access
- Integrated phone number OTP verification using MSG91 and email-based authentication flow
- Developed private and group chat functionality with authentication, media sharing, and user management features.
- Implemented media sharing with Cloudinary integration and optimized media cleanup handling
- Designed scalable chat architecture supporting concurrent users and responsive cross-device experience

Tech Stack: Java, Spring Boot, React.js, REST APIs, MySQL, Spring Security, JWT, JPA/Hibernate, Cloudinary, Tailwind CSS

◆ Trendify – E-commerce Application

Live: <https://trendifyfrontend.vercel.app/>

Role: Full Stack Developer

- Developed a full-stack e-commerce application with product and user management
- Built REST APIs using Spring Boot for backend services
- Designed responsive frontend using React.js and Tailwind CSS
- Implemented JWT-based authentication, authorization, and CRUD operations

Tech Stack: Java, Spring Boot, React.js, MySQL

EDUCATION

Bachelor of Computer Applications (BCA)
Chaudhary Charan Singh University
Meerut | 2021 – 2024

CORE STRENGTHS

- Strong understanding of Java, OOP, and object-oriented design principles
 - Hands-on experience with Spring Boot, REST APIs, and authentication systems
 - Ability to design and develop full-stack applications from concept to deployment
-
