

ABHISHEK KUMAR

Java Full Stack Developer

+91-6200790591 | akumar.12121999@gmail.com | <https://github.com/akumar591> | <https://my-portfolio-website-xgyj.vercel.app/>

PROFESSIONAL SUMMARY

Java Full Stack Developer skilled in building and deploying web applications with Java, Spring Boot, React.js, and MySQL. Experienced in designing secure REST APIs, JWT authentication, and clean, maintainable code. Built and deployed full-stack projects independently, from development to live deployment.

TECHNICAL SKILLS

Languages: Java, JavaScript

Backend Development: Spring Boot, Spring MVC, Spring Security, REST API Design, JWT Authentication, JPA/Hibernate

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS

Databases: MySQL

Tools & Platforms: Git, GitHub, Postman, Cloudinary, Vercel

Core Concepts: Object-Oriented Programming (OOP), MVC Architecture, API Design, Authentication & Authorization

PROJECTS

Talksy – Chat Application | Live Demo : <https://talksy-chat-app-seven.vercel.app/>

Full Stack Developer | Java, Spring Boot, React.js, MySQL, Spring Security, JWT, JPA/Hibernate, Cloudinary, Tailwind CSS

- Engineered a full-stack chat application end-to-end, building a React.js frontend and a secure Spring Boot backend exposing RESTful APIs.
- Implemented JWT-based authentication and Spring Security middleware to protect API endpoints and enforce role-based access control.
- Integrated phone-number OTP verification (MSG91) and email-based authentication to strengthen account security and onboarding flow.
- Designed and delivered private and group chat functionality with messaging, media sharing, and user management.
- Integrated Cloudinary for media storage with automated cleanup handling and deployed the application to Vercel with a responsive, cross-device UI.

Trendify – E-commerce Application | Live Demo : <https://trendifyfrontend.vercel.app/>

Full Stack Developer | Java, Spring Boot, React.js, MySQL

- Implemented JWT-based authentication and authorization to secure user sessions and restrict access to protected resources.
- Designed a responsive, mobile-friendly frontend using React.js and Tailwind CSS to improve usability across devices.
- Built a full-stack e-commerce platform covering product catalog and user management from database design through deployment.
- Developed RESTful APIs in Spring Boot to handle CRUD operations for products, users, and orders with clean, maintainable service layers.

TRAINING / PROFESSIONAL DEVELOPMENT

Java Full Stack Development – CETPA Infotech Pvt. Ltd.

Jan 2025 – Sep 2025

- Completed an intensive 9-month, industry-oriented training program in Java Full Stack Development.
- Gained practical proficiency in Java, Spring Boot, REST API development, and modern frontend technologies (React.js).
- Applied concepts through real-world full-stack projects, covering the complete build-to-deployment workflow.

EDUCATION

Bachelor of Computer Applications (BCA)

2021 – 2024

Greater Noida institute of Management
